

Saliva Samples in Elisa on HDL plates

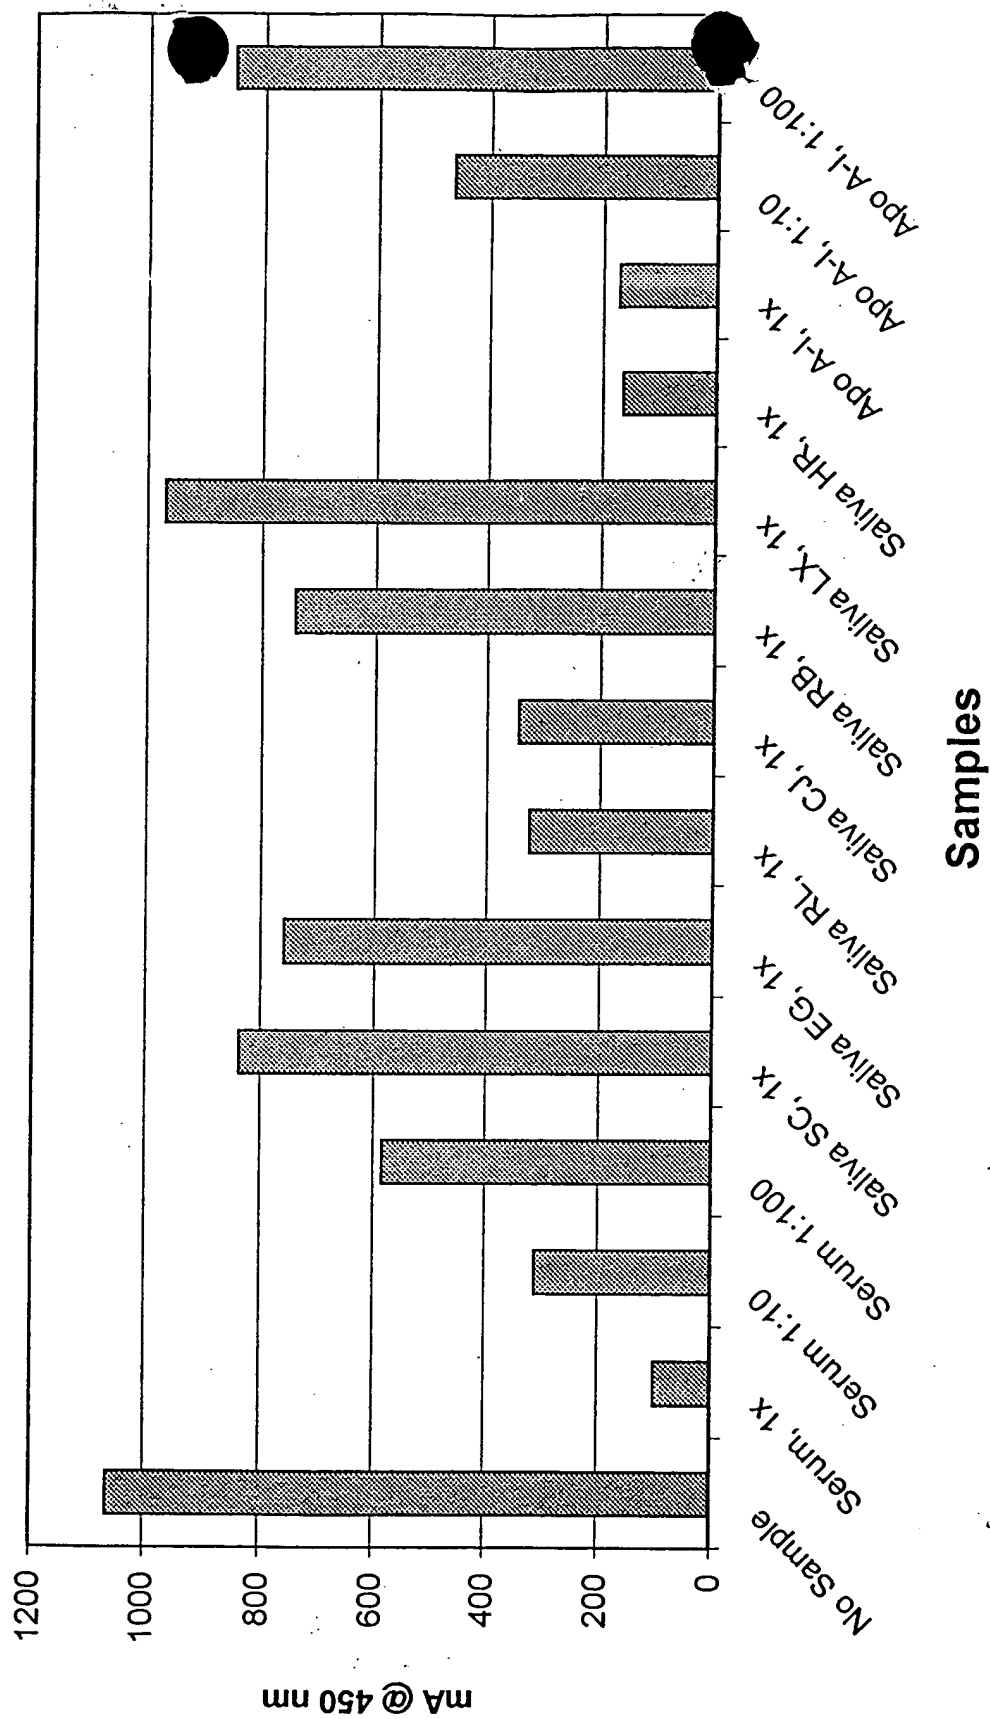

Figure 1

Saliva Samples in Elisa on LDL plates

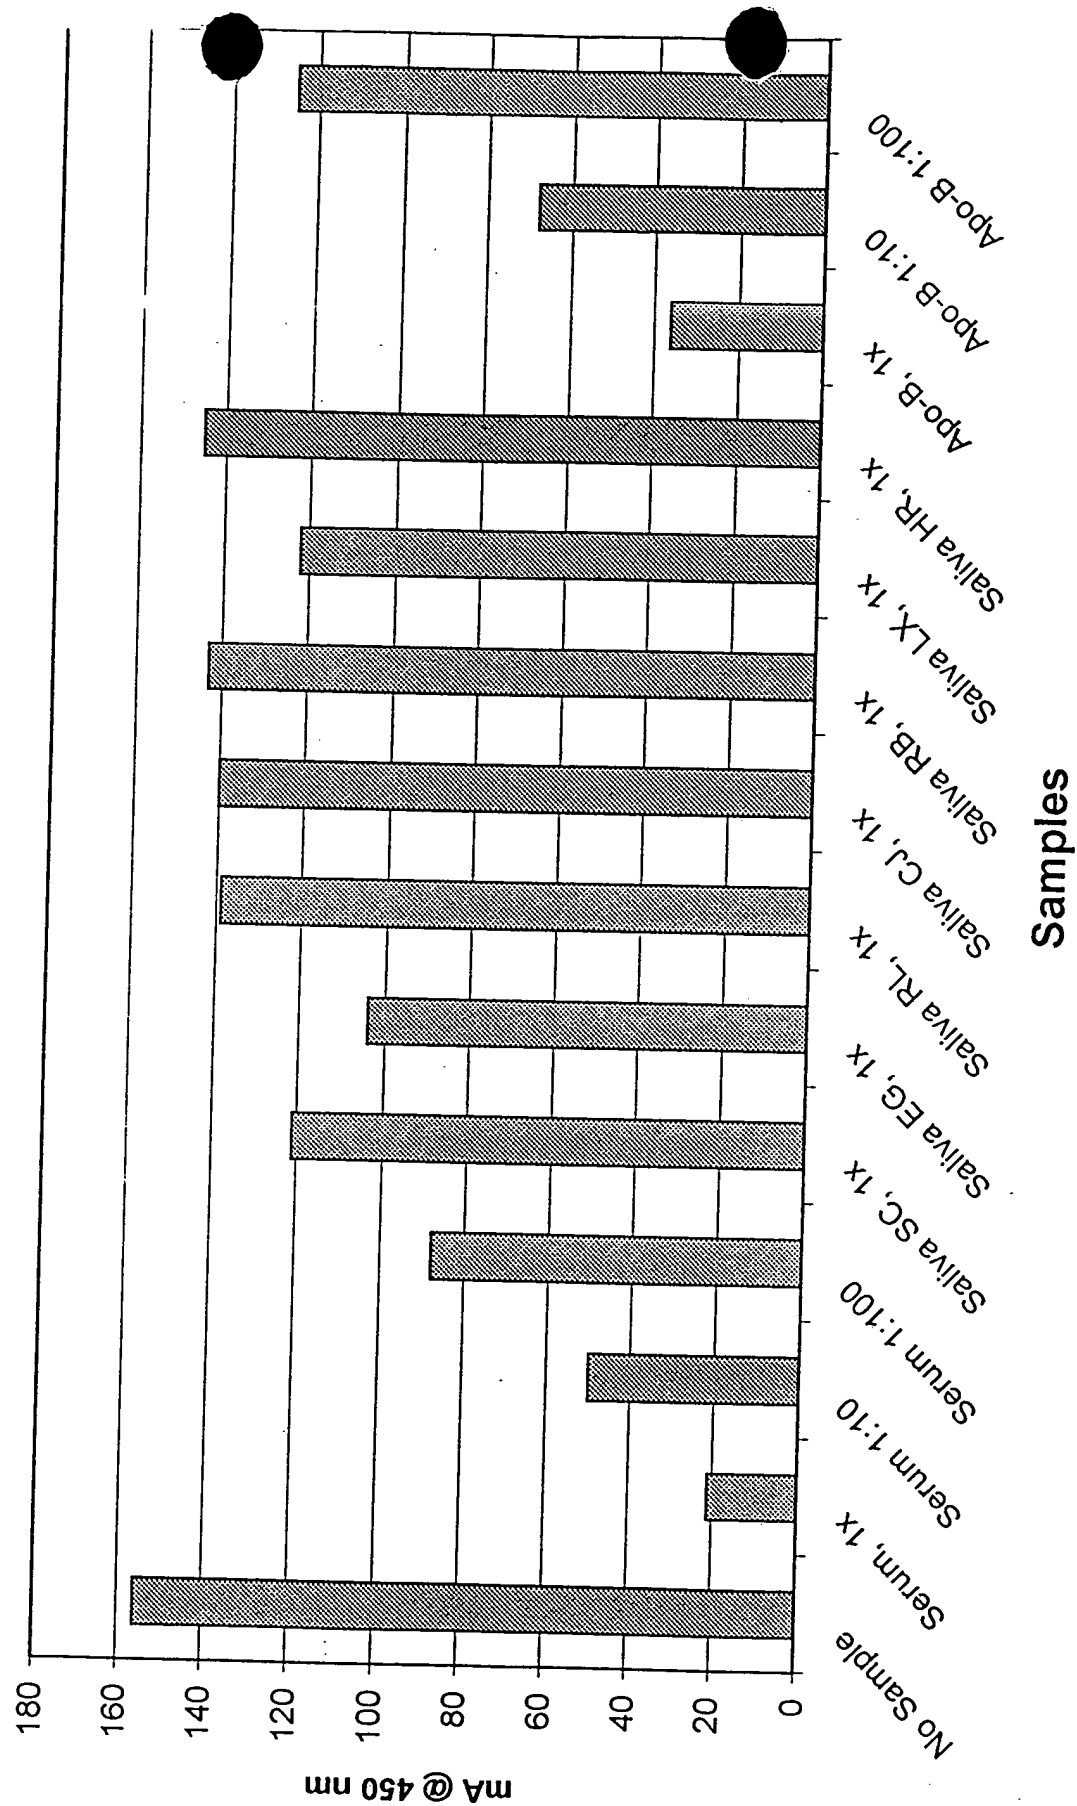

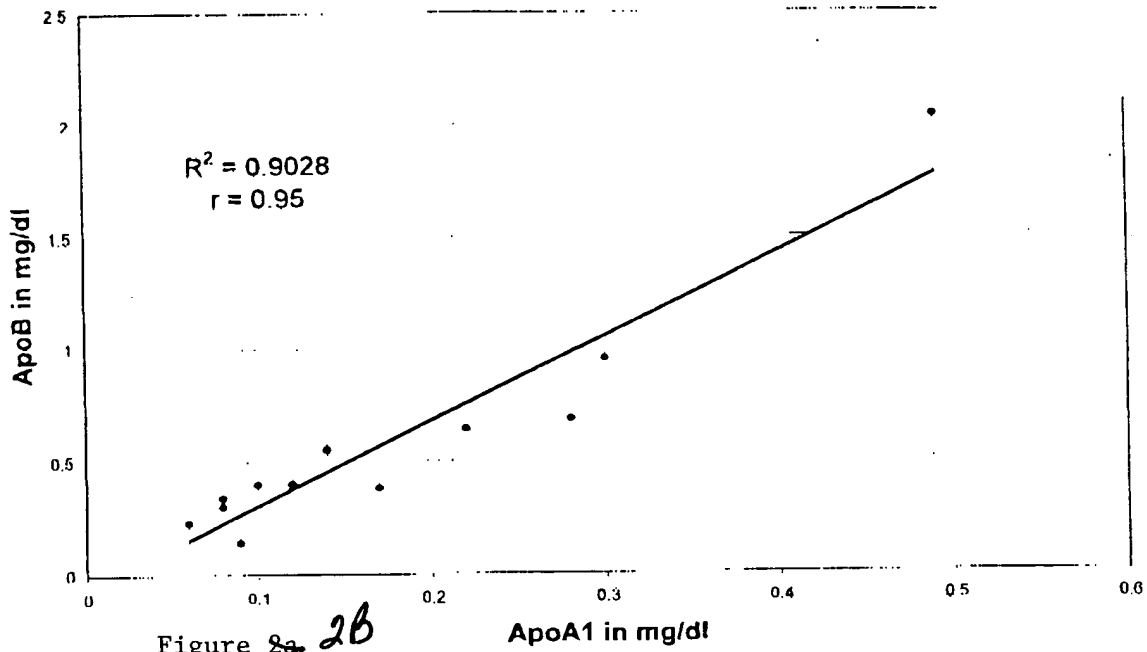

Figure 2A

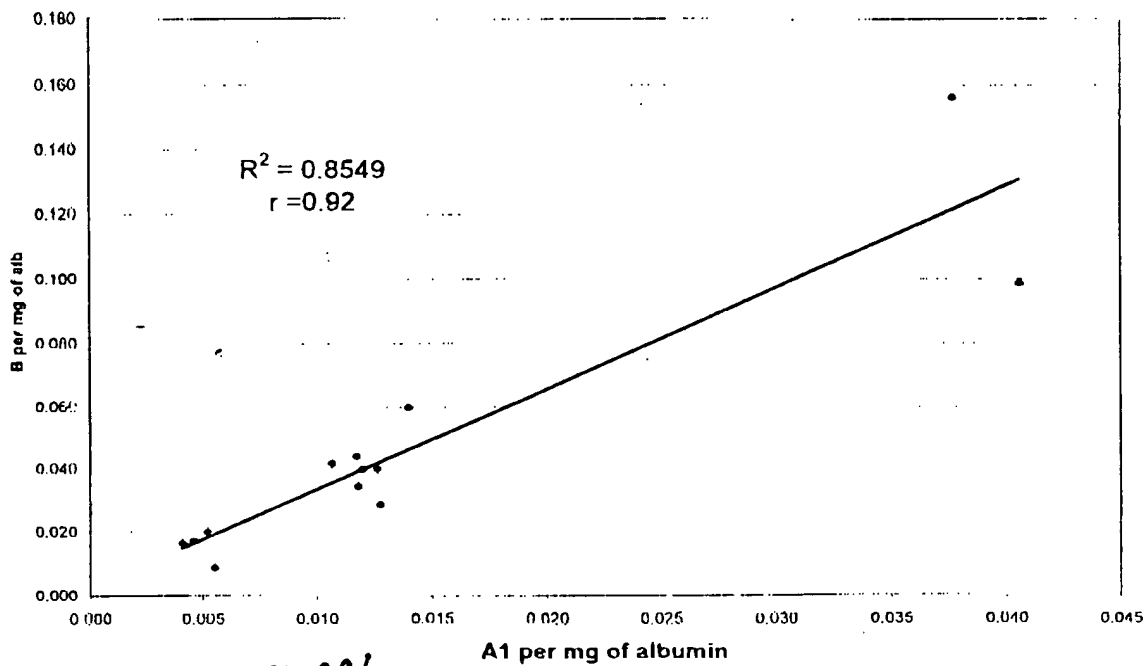

Saliva ApoA vs ApoB in lemon stimulated saliva

Albumin in saliva samples A-B in slim

3/7/00

Saliva A1/B ratio corrected for Albumin in lemon stimulated sample

Albumin in saliva samples A1nB- AlbCorrected

3/7/00

**Color density of LDL trap for serum sample:
run by strip assay**

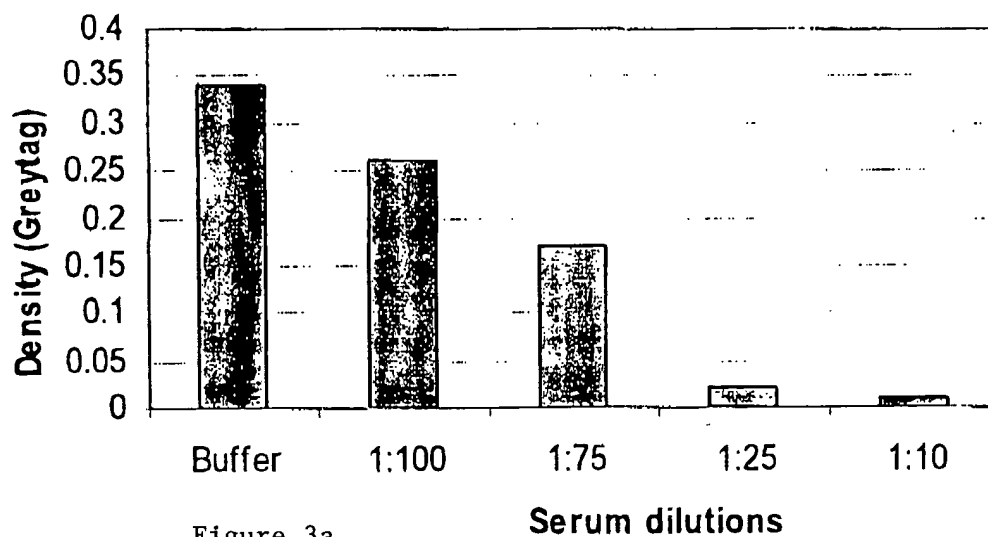

Figure 3a

**Color density of HDL trap for serum samples
run by strip assay**

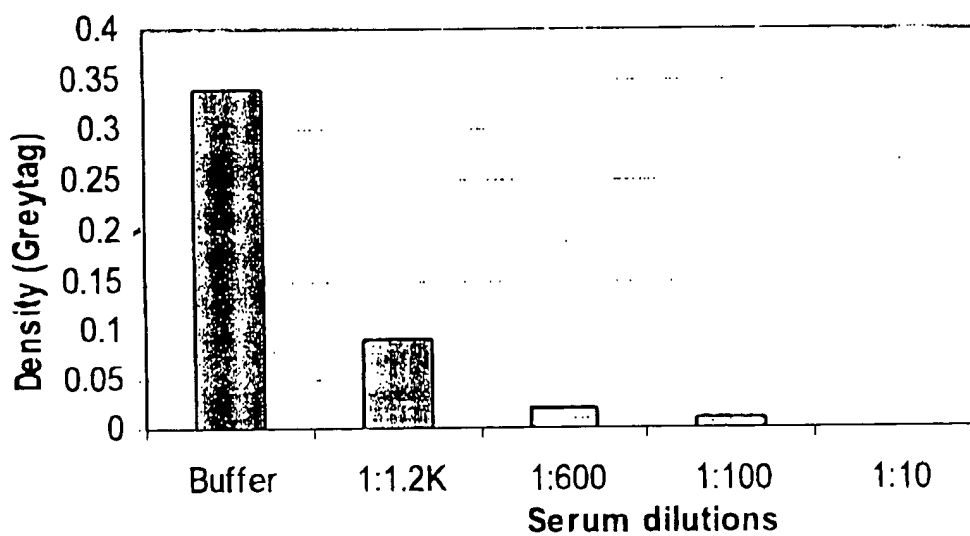

Figure 3b

Correlation of ApoB:ApoA in serum

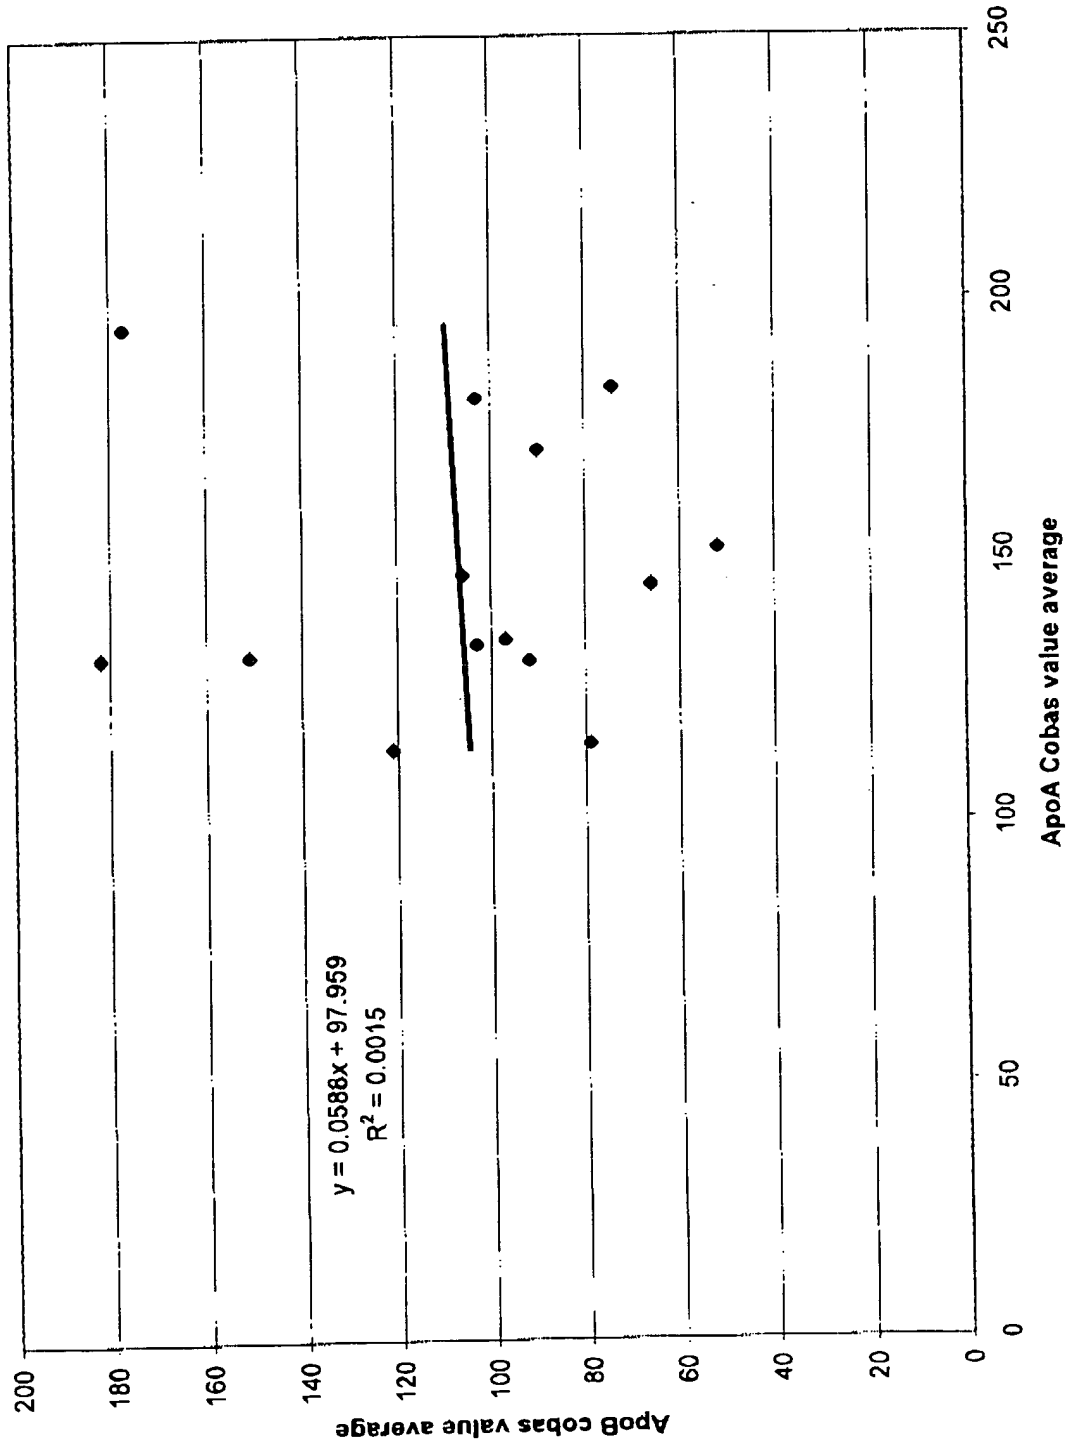

Figure 4a

Correlation of Serex Elisa for Serum ApoB with Roche ApoB

8/25/98

Serum ApoB assayed by two methods, Cobas Mira (Roche) vs in-house Elisa

ch30

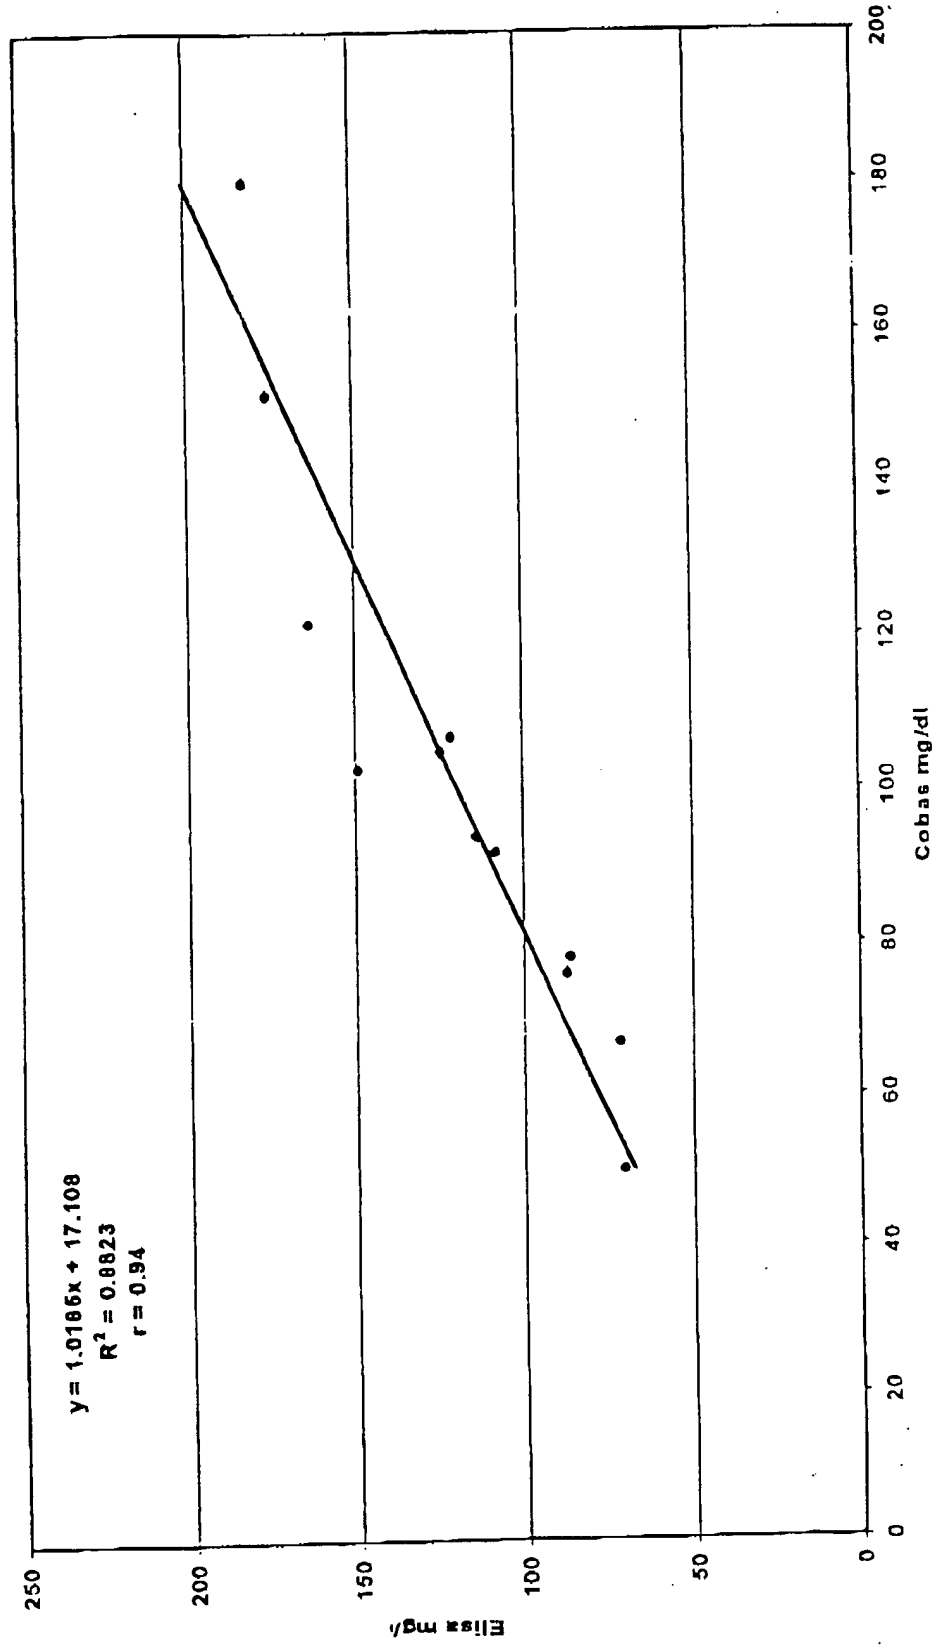

Figure 4b

B to A ratio in lemon stimulated saliva
